

Corporate Compliance Program

Search for Change is committed to detecting and preventing Medicaid fraud, waste, and abuse in our programs as well as ensuring the services provided are of the highest quality. The Compliance Officer and Compliance Committee monitor the ethical and legal behavior of all agency staff and affected vendors.

Examples of Compliance Violations Include:

- ⇒ Billing for services not provided
- ⇒ Providing unnecessary or unauthorized services
- ⇒ Billing multiple times for the same service
- ⇒ Falsifying or backdating billing documentation
- ⇒ Giving or accepting something of value in return for referrals
- ⇒ Code of Conduct Violations

If you see something, say something. Compliance is everyone's business and suspicions of compliance violations must be reported. Reports can be made directly to the Compliance Officer or via the anonymous Hotline.
